ZLIN Savage Bobber Model Guide

The ZLIN Savage Bobber is a single-engine piston aircraft from Zlin Aviation. It is one of the Savage models covered by the Zlin Savage Master Equipment List. The inputs give no Bobber-specific weights, speeds, range or seat count, so confirm every limit in the POH and with the factory before buying.

KEY TAKEAWAYS

- The December 2018 Zlin equipment list covers all Savage models, including the Bobber. It lists approved equipment and is not a spec sheet.
- No weights, speeds, range or seat count for the ZLIN Savage Bobber were supplied. Get them from the POH.
- Listed Savage engine options are the Rotax 900 series and the Titan X-340CC. Confirm which engine is fitted.
- Check the installed avionics, propeller and parachute against the equipment list and the aircraft's AMM and POH.

WHAT THE EQUIPMENT LIST COVERS

Zlin Aviation notice 311218 (MEL), dated 31 December 2018, replaces all previous MEL notices. It applies to all serial numbers of the Savage models, including the Bobber. Listed equipment is approved for installation in the Savage series, from airframe and engine to instruments and ADS-B.

ENGINES AND PROPELLERS LISTED

Rotax 900 series engines list a Zlin carburetor heating system, oil coolers, pre-heaters and auxiliary alternators. The Titan X-340CC engine lists Continental starter, ignition and fuel injection parts. Propeller options include Zlin OEM, E Prop, Woodcomp, DUC, IVO, Sensenich, CT and Catto.

AIRFRAME AND SAFETY OPTIONS

Airframe options include Galaxy or BRS parachute systems, an aerial towing system, and amphibian floats rated 1500. Safety items include Zlin OEM and H3R Aviation fire extinguishers, ACI and Reddish stall warning systems, and a TL Elektronic TL-4324 aircraft fatigue meter.

SAFETY NOTES

- The list covers all Savage models. Confirm each fitted item against the Bobber's own AMM and POH before relying on it.
- The notice header shows ID 311218 but the body also cites 311217. Verify you hold the current notice from Zlin Aviation.
- Check whether a parachute system, stall warning and fire extinguisher are actually fitted. The list only says they are approved options.
