

TURBO STATIONAIR HD

UTILITY IS JUST THE BEGINNING

The Cessna® Turbo Stationair® HD aircraft is the epitome of versatility. Pushing the limits of what is possible, the Turbo Stationair HD doesn't make you choose between necessity and aspiration. This highly adaptable aircraft expands your missions to take you almost anywhere, with rough, short-field capabilities and optional floats configuration.

Maximum Range
703 nm

Maximum Cruise Speed
161 ktas

Maximum Occupants
6

Useful Load
1,441 lb

Takeoff Ground Roll
1,060 ft

TAKING PERFECTION ONE STEP FURTHER

CARGO READY

Effortless loading and unloading of payload through multipurpose cargo doors.

IMPROVED VISIBILITY

With the highly reliable LED landing and recognition lights, which utilize pulse recognition technology and providing great illumination.

BREATHE EASY

With integrated oxygen at high altitudes while flying in turbocharged comfort.

INCREASED AUTOMATION AND MORE PROTECTION FEATURES

Standard Garmin GFC™ 700 digital autopilot with Electronic Stability and Protection (ESP) and Under Speed Protection (USP)

NEXT-GENERATION AVIONICS

Garmin™ G1000™ NXi avionics provide a brand-new cockpit interface with enhanced graphics, faster hardware, new features and optional wireless connectivity.

HEAVY LIFTING

Handle heavy hauls with a maximum payload of 1,580 pounds.

TURBOCHARGED ENGINE

A robust 310-horsepower turbocharged engine makes for smoother, quicker climbs of altitudes up to 26,000 ft.

PREPARED FOR COLD WEATHER

Set the perfect RPM and reduce ice during all phases of flight with the heated, constant speed propeller.

LOWER TOUCHDOWN SPEEDS

And steeper descents into mountainous terrain are possible with large powerful flaps.

FLEXIBILITY TO LAND NEARLY ANYWHERE

Heavy-duty landing gear designed tough for landing on semi-prepared landing surfaces with optional oversized tires. Easily removed for conversion to amphibious floats.

SEATING FOR SIX

The Turbo Stationair HD comfortably seats six, with five configuration options, while offering the ability to remove and fold down seats for optimal space.

SUPERIOR FORM MEETS FUNCTIONALITY

The sleek simplicity of the Turbo Stationair HD's rugged cabin will certainly impress. Adaptable by design, spacious seating for six offers plenty of room with the option to fold down or remove seats for even more space, giving you the freedom to make every mission unique. The Turbo Stationair HD offers built-in oxygen and seatbelt airbags, along with 12-volt power ports to allow passengers to work or be entertained for the duration of the trip.

COMMAND THE NEXT GENERATION

The Turbo Stationair HD is powered by the latest technology in integrated cockpit avionics, the Garmin G1000 NXi. With an improved graphical interface, more powerful hardware, higher resolution displays, added functionality to improve situational awareness and optional wireless technology, managing the flight deck has never been easier.

G1000 NXi

NEW FEATURES AND OPTIONS

- + ADS-B Out and In
- + Wireless database and flight plan loading
- + Integrated VFR sectional charts
- + IFR high and low charts with night mode
- + Enhanced HSI features
- + Digital audio panel with Bluetooth
- + Vertical situation display
- + Selectable visual approaches
- + Optional SurfaceWatch™ for greater situational awareness
- + Enhanced graphics and faster processing
- + Improved joystick with smoother panning
- + Simplified maintenance

SIMPLICITY AND PROTECTION

Garmin GFC 700 ESP and USP

GARMIN ELECTRONIC STABILITY AND PROTECTION (ESP) AND UNDER SPEED PROTECTION (USP)

The Garmin GFC 700 autopilot features ESP and USP, providing pilots with an added measure of protection and correction. When a pilot exceeds user-selected pitch, roll or airspeed limitations, Garmin ESP and USP provide gentle movements on the flight controls to adjust the aircraft's pitch attitude or bank angle, adding a wide range of flight regimes.

NEW SATELLITE CONNECTIVITY

The new Garmin Connex™ Satellite— Iridium option allows fully integrated weather, satellite phone and text messaging during your flight. Its automatic position reporting feature also enables friends and family to track you during your flight. A Garmin Connex subscription is required.

VFR Sectionals

IFR High and Low Charts

Vertical Situation Display

COM Frequency Decoding

ADVENTURE UNLEASHED RUNWAY OPTIONAL

Engineered to keep up with your ambitions, whether it's a weekend adventure or for business, the Turbo Stationair HD handles it all. Rough, short-field landing capabilities and 127 cubic feet of cargo space allow you to go more places with fewer boundaries. Don't be limited to the runway — the Turbo Stationair HD can easily be configured for amphibious floats, taking you places other aircraft can only cast shadows.

TURBO STATIONAIR HD SPECIAL MISSIONS

When a job needs to get done, the Cessna Turbo Stationair HD is your greatest ally. Whether your mission calls for medevac, search and rescue or aerial surveillance, this heavy hauler completes each mission with comprehensive dependability despite rugged or remote landing conditions. Spacious with a heavy payload, the Turbo Stationair HD is perfect for hauling military and medical equipment or evacuating those in need.

EXTERIOR DESIGN SELECTION

Choose from several different paint combinations to outfit your Turbo Stationair HD to fit your style preferences.

*Performance data is based on standard conditions with zero wind. Field performance assumes a level, hard-surface, dry runway. Range is based on a ferry mission with one pilot (170 lbs) at 45% power with 45 minutes reserve.

THE LARGEST AND MOST CAPABLE SERVICE NETWORK

Textron Aviation's extensive engineering and manufacturing resources provide you with a worldwide network of technical support experts and maintenance solutions.

- Field service representatives from Textron Aviation are equipped with extensive technical manuals and detailed vendor documentation to answer your questions.
- Add peace of mind to every trip with global ASF networks that are uniquely qualified to service your piston aircraft.
- Find any part you need. Textron Aviation offers more than 19 million components, including aftermarket selections from trusted brands.

Fly with confidence knowing you're backed by the most capable service and support network in general aviation.

THE WORLD'S LEADER IN AVIATION

We advance the market by leveraging the latest technology in our Beechcraft®, Cessna and Hawker® aircraft. These cornerstone brands account for more than half of all general aviation aircraft flying today.

We have delivered more than 250,000 aircraft, exceeding 150 million flight hours in over 170 countries. In the last five years, more than 10 new Textron Aviation products have been certified and delivered. We continue to lead the market with the widest-ranging offerings available to customers.

Our portfolio features Citation® aircraft, the world's best-selling business jets; King Air® and Caravan® aircraft, both class-leading turboprops; and advanced piston aircraft for transport and efficient pilot training.
