

COMMANDER 690A Model Guide

The COMMANDER 690A is covered by Twin Commander Aircraft LLC (Creedmoor, NC) in its manual revision lists. The only source for this guide is a revision-level list, so it has no performance, weight or speed figures. It is useful for checking that an aircraft's manuals are current.

KEY TAKEAWAYS

- The flight manual for the COMMANDER 690A is part number M690002-1, at revision 33 dated 12/23/96.
- The maintenance manual (M690002-2) is shared with the 690B. It is at revision 4, dated 8/9/2002.
- The illustrated parts catalog (M690002-4) is dated 7/22/94 and is shared with the 690B.
- The library record lists the type as single-engine piston, but the source lists it with Twin Commander models. Confirm the type from the aircraft's own records.

SAFETY NOTES

- Supplement revision levels apply only if those supplements are installed. Check which supplements your aircraft has against the manual.
- Do not rely on this guide for operating limits. Use the current approved flight manual.

FLIGHT MANUAL / POH STATUS

For the 690A, the list shows part number M690002-1, last revision 33, dated 12/23/96. Supplement revision columns show 20 dated 8/18/2008 and 20 dated 1/20/2009. These apply only if the matching supplements are installed on the aircraft.

MAINTENANCE AND PARTS DOCUMENTS

The maintenance manual M690002-2 covers the 690A and 690B: revision 4, dated 8/9/2002, with interim change notices dated 1/11/85, 5/15/87 and 7/20/89. The illustrated parts catalog M690002-4 covers the 690A and 690B and is dated 7/22/94.

WHAT THIS SOURCE DOES NOT COVER

The source is a revision index only. It gives no engine, seating, speed, range, weight or limits data for the COMMANDER 690A. Get those from the current flight manual and the aircraft's records.
